S3 COMPANY

NEXT GENERATION DATA CENTER

About us

S3 Company offers a full range of data center services.
Our data center is located in Sofia (Bulgaria) and currently houses two colocation facilities with more than 5000 U in use.

Our continuous commitment to invest in research and development enables us to consistently implement innovations and improve the security and stability of our services.

At S3 Company, our clients can rely on the competence, adequacy and respect we would expect to receive if we were in their place.
